

OUR CORE PURPOSE

To provide and promote a quality recreation based environment for Owners and Guests resulting in a secure, harmonious legacy community.

OUR CORE VALUES

Ethical Practices:

We establish and communicate clear guidelines for what is best for the community and then follow-through.

Safety:

We design to provide and promote freedom from worry. Freedom from worry means that you can relax after a week at work, your children at play, “kick-back and put your feet up.”

Flexibility:

We value new perspectives and work together to adapt to changing circumstances.

Respect:

We actively listen and value different points of view.

Family:

We are deliberate in welcoming new people, learning their names, and embracing our differences.
